FICTIONAL SPECIMEN DOCUMENT — PREPARED FOR EDUCATIONAL / ILLUSTRATIVE PURPOSES ONLY.
All names, courts, case numbers and identifying details are invented. This is NOT a record of any real case, real person, or real proceeding, and must not be presented, filed, or relied upon as an authentic document.

EVIDENCE / SEIZURE MEMO

OFFICE OF THE SPECIAL INVESTIGATION CELL
FICTIONAL STATE POLICE

Memo No.:	SIC/2008/077 (Specimen)
Reference Case:	Unnatural Death / Suspected Homicide of a Religious Sister, Fictional Diocese Institution (Specimen)
Prepared by:	Dy.S.P. L. Fernandes, Special Investigation Cell (fictional)
Subject:	Discrepancies noted in Chemical Examiner's Work Register and Station Diary

1. Circumstances

During re-investigation of the above matter, undertaken after the case was transferred to this Cell in 2008, the original Chemical Examiner's work register maintained at the Fictional State Forensic Laboratory for the relevant month was called for and produced.

2. Observations

2.1 Page 34 of the register, which as per the running serial index should record the entry logging receipt of viscera samples in the present case, bears visible signs of having been overwritten with a different ink and a different hand from the entries immediately preceding and following it.

2.2 The exhibit description originally entered against the relevant serial number appears to have been altered from what field notes (Ext. P-12, Specimen) describe as multiple injury-site samples to a single generic “viscera, routine” entry.

2.3 On requisitioning the Station Diary (General Diary) of the local police station for the three days following the discovery of the body, it was found that pages corresponding to two of those three days are physically absent from the diary, with the binding thread cut rather than pages having come loose through use.

2.4 The then Station House Officer, when questioned, could not account for the missing pages and stated that the diary had remained in the police station's custody throughout.

3. Action Taken

The work register (relevant pages) and the Station Diary have been seized under seizure memo and forwarded for forensic examination of the ink and paper to determine the approximate timing of the alteration relative to the surrounding entries.

[END OF EXCERPT — SPECIMEN DOCUMENT]

WITNESS STATEMENT

Recorded under Section 161, Fictional Code of Criminal Procedure

Name of Witness:	Constable P. Nair (fictional)
Designation:	Then posted at the local police station; presently Head Constable (fictional)
Recorded by:	Dy.S.P. L. Fernandes, Special Investigation Cell
Date:	19 September 2008 (Specimen)

Statement

"I was posted as a constable at the local police station at the time this case was first registered. I used to maintain the Station Diary along with the duty officer on a rotational basis."

"A few days after the incident, I was told by the then Station House Officer that certain pages of the diary for those dates were 'not to be shown' if anyone came asking, and that a fresh set of pages would be prepared summarising the entries instead. I did not personally see who removed the original pages, but I did see the diary register with the pages missing, and the stitching thread cut, some days later."

"I was afraid to report this at the time because of my junior position and the seniority of the officers involved. I am now stating what I know as I have been assured of protection."
